

PAPG at a Glance

Pan African Planning Group, LLC is a certified woman-Owned Small Business (WOSB) and a venerable multi-platform consulting firm that provides relationship-driven professional services to organizations in the federal, commercial, and non-profit sectors.

If you choose to work with PAPG you'll get:

- Seasoned, high capability consultants with a passion for delivering results
- Lower overhead structure resulting in favorable pricing
- Professionals dedicated to building long-term relationships
- A firm that is easy to work with

But most of all, you'll get results.

Why We're Here

PAPG was founded in 2016 because we wanted to truly change the social determinants of the black community in Oregon in way that's collaborative and from multiple platforms.

- Our highest priority is to leverage lean thinking to build prosperity and opportunity throughout the black community and other communities
- We help institutions shape long term plans to eliminate disparities and implement projects that immediately improve the quality of life
- We provide deep expertise in the strategic, market, financial, and economic elements that make projects possible

Vision: Our vision is to create thriving Pan Africans (Africans, African Americans, Afro-Caribbean's) in Oregon and in five years to be an outstanding multi-platform consulting firm and a preferred partner of choice by our clients and community.

Overview

At PAPG, we build strong affiliations with our clients to help them understand their ultimate business profitability and potential success. We do this by using our experience and resources to provide professional, well thought out advice and strategies necessary to achieve dreamed outcome.

We bring together professionals from a variety of backgrounds with different skills, experiences and approaches. This diversity of thought and opinion allows us to better challenge the norm, identify creative solutions and become stronger thought leaders. PAPG actively looks for complementary and unique projects that add value to Oregon's economy and achieve healthy people in healthy communities.

The PAPG Approach

We take a holistic view of consulting. Our approaches involve multiple levels of engagement beyond pure capital, and act as long-term commitments to businesses, the people they serve and the communities in which they exist.

We are also a determined business that solely exists to fulfill a deficit in the Black community in Oregon, a Pan African unity in Oregon. We are committed to galvanize, mobilize and empower the black community to eliminate the perpetual disconnect between foreign born blacks and American born blacks in Oregon and create pathways to combine the diversity in the African community within a Pan African framework to promote and achieve Pan African unity.

We are also home to iconic community based organizations and groups like The Pan African Festival, The Oregon Muslim Women Foundation and The Somali Empowerment Circle.
